Summary (as of Nov 28, 2018)

This bill requires the Environmental Protection Agency (EPA) to amend its regulations to revise the standards for the emission of ethylene oxide. Specifically, regulations must be revised based on results from the National Center for Environmental Assessment report titled "Evaluation of the Inhalation Carcinogenicity of Ethylene Oxide."

The bill also requires revisions to apply maximum achievable control technology requirements to chamber exhaust vents. Maximum achievable control technology standards are established for sources of hazardous air pollutants to limit or control emissions.

The EPA must notify the public of violations under the revised standards, and failure to do so will result in an investigation to assess the health risks and prevent a future failure of notification.

Actions Timeline

- **Nov 28, 2018:** Introduced in Senate
- **Nov 28, 2018:** Read twice and referred to the Committee on Environment and Public Works. (text of measure as introduced: CR S7192-7193)
