## **Job Creation through Energy Efficient Manufacturing Act**

This bill requires the Department of Energy (DOE) to establish a Financing Energy Efficient Manufacturing Program that provides grants for projects that: (1) improve the energy efficiency of small- or medium-sized manufacturers that employ no more than 750 employees, and (2) develop technologies to reduce electricity or natural gas use by the manufacturers.

The bill establishes labor requirements for projects that receive grant funding under this bill. In addition, the bill establishes a requirement that grant projects only use iron and steel products that are produced in the United States, unless DOE grants a waiver of the requirement.
