National Security Commission Artificial Intelligence Act of 2018

This bill establishes, as an independent commission within the executive branch, the National Security Commission on Artificial Intelligence to review the advances in artificial intelligence, related machine learning developments, and associated technologies. Such commission shall consider the methods and means necessary to advance the development of artificial intelligence, machine learning, and associated technologies by the United States in order to comprehensively address national security needs, including economic risk, and any other needs of the Department of Defense or the common defense of the nation.

Actions Timeline

- **May 22, 2018:** Referred to the Subcommittee on Research and Technology.
- **Mar 23, 2018:** Referred to the Subcommittee on Digital Commerce and Consumer Protection.
