## **Support Tools to Obliterate Pesky Robocalls Act or the STOP Robocalls Act**

This bill provides measures to eliminate unlawful robocalls.

Specifically, the bill requires the Federal Communications Commission (FCC) to establish a streamlined process whereby a private entity may voluntarily share information about unlawful robocalls or text messages and unlawful caller identification spoofing. In addition, the bill authorizes a telecommunications company to provide a free, opt-in robocall blocking service to its customers.

The FCC must also study and report on whether a Voice Over Internet Protocol service should be required to provide the FCC with its contact information and retain records of all calls transmitted over the service.

### **Actions Timeline**
