Ocean, Coastal, and Estuarine Acidification Necessitates Research Act of 2019 or the OCEAN Research Act

This bill addresses the effects of ocean and coastal acidification on marine organisms and ecosystems. Specifically, the bill reauthorizes through FY2024 and revises the Ocean Acidification Program of the National Oceanic and Atmospheric Administration and the ocean acidification grant program of the National Science Foundation. The bill expands those programs, as well as the ocean acidification activities of the National Aeronautics and Space Administration (NASA), to include efforts to research and monitor the effects of coastal acidification.

Actions Timeline

- **Oct 24, 2019:** Introduced in Senate
- **Oct 24, 2019:** Read twice and referred to the Committee on Commerce, Science, and Transportation.
