## **Streamlining The Official Response and Monetary Aid for Disasters Act or the STORM Aid for Disasters Act**

This bill requires any federal agency that sustained specified damage as a result of a presidentially-declared major disaster to submit to Congress and the Office of Management and Budget a report that describes the damage incurred, an estimate of the cost of such damage, and any effects to operations if the agency does not receive additional resources.

*Specified damage* is defined as

- damage to federal facilities and property;
- negative impacts on federal operations, including damage to equipment, loss of program support, and any other calculable costs, as well as costs necessary to resume operations; and
- loss of services, totaling a cost exceeding \$500,000, that would have been provided by the agency but for the disaster.

The bill provides for expedited consideration of a bill making supplemental appropriations to agencies in response to such report.
