Don't BLock Our Communities Act or the D-BLOC Act

This bill addresses concerns related to blocked crossings. (A blocked crossing is a circumstance in which a train, railroad car, or locomotive engine is stopped or is standing in a manner that obstructs public travel at a crossing).

Specifically, the bill

- requires each railroad carrier to collect data on blocked crossings and directs the Department of Transportation (DOT) to incorporate such data into the national highway-rail crossing inventory;
- establishes a 10-minute limit on trains, locomotive, railroad cars, or other railroad equipment blocking crossings, with specified exceptions;
- authorizes DOT to issue civil penalties for each incident where a crossing is blocked by a standing train, locomotive, or rail equipment;
- requires DOT to issue regulations defining what is considered persistently or egregiously blocking a crossing, including taking into consideration the extent to which the blocked crossing poses a public safety hazard;
- does not apply to the National Railroad Passenger Corporation (Amtrak) or commuter authorities;
- directs DOT to issue and publish a national strategy on how it plans to address blocked crossings; and
- requires each railroad carrier to establish and maintain a toll-free telephone service for rights-of-way over which it dispatches trains to directly receive calls reporting blocked crossings.

Actions Timeline

- **Mar 13, 2020:** Referred to the Subcommittee on Railroads, Pipelines, and Hazardous Materials.
- **Mar 12, 2020:** Introduced in House
- **Mar 12, 2020:** Referred to the House Committee on Transportation and Infrastructure.
