Summary

(as of May 19, 2020)

Medical Innovation Acceleration Act of 2020

This bill exempts non-invasive diagnostic devices from the regulatory authority of the Food and Drug Administration.

The bill defines *non-invasive diagnostic device* as one that does not penetrate the skin or any other membrane of the body, is not inserted or implanted into the body, causes no more than ephemeral compression or temperature changes to in situ bodily tissues, and does not subject bodily tissues to ionizing radiation.
