Fixing America's Regulatory Mess To Facilitate Agricultural Byproducts and Livestock Expedited Delivery Act or the FARM to TABLE Delivery Act

This bill revises exemptions with respect to commercial motor vehicle safety regulations involving the transportation of agricultural commodities and farm supplies.

The bill allows the federal hours-of-service rules exemption regarding maximum driving and on-duty time for drivers transporting agricultural commodities and farm supplies to apply year-round. Current law provides an exception from the federal hours-of-service rules for the transportation of agricultural commodities within a 150 air-mile radius of the normal work reporting location only during planting and harvest periods which are determined by each state.

Additionally, the Department of Transportation must issue regulations to amend the definition of agricultural commodity to include specific commodities that are covered by the federal hours-of-service rules exception.
