### Summary (as of Jun 11, 2020)

#### Electric Power Infrastructure Improvement Act

This bill allows a tax credit for investment in a qualifying electric power transmission line property. The bill defines *qualifying electric power transmission line property* as (1) any overhead, submarine, or underground transmission facility that is capable of transmitting electricity at a voltage of not less than 345 kilovolts, has a transmission capacity of not less than 1,000 megawatts, is an alternating current or direct transmission line, and delivers power produced in either a rural area or offshore; and (2) conductors or cables, or other specified equipment, necessary for the proper operation of the facility.
