**Covering Life-saving Investigations Needed in Cancer and Other Life-threatening Conditions through Timely use of Resources for Easy and Affordable Treatment from Medicaid for Enrollees in Need Today Act or the CLINICAL TREATMENT Act**

This bill requires state Medicaid programs to cover routine patient costs for items and services that are provided in connection with a qualifying clinical trial regarding cancer or other life-threatening conditions.

The bill defines "routine patient costs" to include items and services that would otherwise be covered under Medicaid absent the patient's participation in the clinical trial; the term includes items and services relating to trial complications, but excludes those items and services that are the subject of the trial or that are provided solely in relation to data analysis.

Additionally, a "qualifying clinical trial" means, among other things, a clinical trial that is approved or funded by specified entities (e.g., the National Institutes of Health) or is an authorized new drug trial.
