## Summary (as of Mar 25, 2021)

### Clean Hydrogen Production Incentives Act of 2021

This bill allows a new tax credit for the production of clean hydrogen using electricity produced from renewable energy resources (e.g., wind, solar, geothermal, nuclear energy). The bill defines *clean hydrogen* as hydrogen produced using an electrolyzer for which the electricity used is produced from qualified renewable energy resources, or by any other process which has been determined to have a rate of carbon dioxide emissions per kilogram of hydrogen produced equal to or lower than such rate for such production using other specified processes.

## Actions Timeline

- **Mar 25, 2021:** Introduced in Senate
- **Mar 25, 2021:** Read twice and referred to the Committee on Finance.
