Summary (as of Jan 4, 2021)

Lung Cancer Screening Registry and Quality Improvement Act of 2021

This bill establishes several grant programs and requirements for registries that collect data from lung cancer screenings with low-dose computed tomography (LDCT) under Medicare. (Currently, for purposes of Medicare coverage, radiology imaging facilities that furnish such LDCT screenings must report certain data to approved registries.)

Specifically, the bill provides funds for FY2022-FY2026 for grants to help entities establish free registries, and requires registries to be interoperable in order to receive federal funds. The bill also provides grants to support the development of related quality measures for lung cancer screenings.

Actions Timeline

- **Feb 2, 2021:** Referred to the Subcommittee on Health.
- **Jan 4, 2021:** Introduced in House
- **Jan 4, 2021:** Referred to the Subcommittee on Health.
- **Jan 4, 2021:** Referred to the Committee on Energy and Commerce, and in addition to the Committee on Ways and Means, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.
