## **Consortia-Led Energy and Advanced Manufacturing Networks Act of 2021**

This bill requires the Department of Commerce to carry out a grant program for establishing consortia to enhance U.S. economic, environmental, and energy security by promoting domestic research and commercial application of clean technologies and advanced manufacturing processes. Clean technology means technologies, production processes, or methodologies that

- produce energy from renewable energy sources;
- transmit, distribute, or store energy more efficiently;
- enhance energy efficiency for buildings and industry;
- enable the development of a Smart Grid;
- produce an advanced or sustainable material with energy or energy efficiency applications;
- improve energy efficiency for transportation; or
- enhance water security through improved water management, conservation, distribution, or end use applications.

## **Actions Timeline**

---

- **Apr 28, 2021:** Introduced in Senate
- **Apr 28, 2021:** Read twice and referred to the Committee on Commerce, Science, and Transportation.
