## **Nullifying Opportunities for Variants to Infect and Decimate Act or the NOVID Act**

This bill establishes the Pandemic Preparedness and Response Program to coordinate and carry out the U.S. government's global health response to COVID-19, its variants, and other pathogens with pandemic potential.

As part of the program, the bill requires, within 30 days, the development of a comprehensive strategy to end the COVID-19 pandemic. The strategy must outline efforts to increase COVID-19 vaccinations worldwide, including through the immediate release of the COVID-19 vaccine doses that the United States committed to sending abroad.

The bill also requires a long-term strategy for the program to prevent future pandemics.
