Storage and Transportation Of Residual and Excess Nuclear Fuel Act of 2021 or the STORE Nuclear Fuel Act of 2021

This bill directs the Department of Energy (DOE) to establish a program under which it may (1) site, construct, and operate one or more consolidated interim storage facilities for the storage of spent nuclear fuel and high-level radioactive waste; and (2) enter into contracts with the licensee of a private interim storage facility in order to take title to, transport, and store in it either high-level radioactive waste or spent nuclear fuel.

DOE must prioritize contracting with private facilities unless it can demonstrate that it is able to develop a site in a more cost-effective manner.

Actions Timeline

- **Mar 22, 2021:** Referred to the Subcommittee on Energy.
- **Mar 19, 2021:** Introduced in House
- **Mar 19, 2021:** Referred to the House Committee on Energy and Commerce.
