## Summary (as of Apr 12, 2021)

### Resetting the Impact Act of 2021 or the TRIA Act of 2021

This bill requires certain data collection and recommendations relating to a Medicare post-acute care prospective payment system to incorporate the effects of COVID-19 on providers and patients.

Current law requires the Centers for Medicare & Medicaid Services (CMS) and the Medicare Payment Advisory Commission to develop a prototype for a unified Medicare payment system for post-acute care that is based primarily on patient characteristics (e.g., cognitive ability, functional status, or impairments) rather than the provider setting (e.g., skilled nursing facility, home health agency, inpatient rehabilitation facility, or long-term care hospital).

The bill requires the prototype to account for the role of post-acute care providers during public health emergencies, particularly in light of the COVID-19 emergency and the related effects on such providers and their patients. The bill also delays the development of the prototype until two years after the later of January 1, 2022, and the date by which the CMS has collected eight calendar quarters of data after the emergency ends and other changes have been implemented.

## Actions Timeline

- **Apr 13, 2021:** Referred to the Subcommittee on Health.
- **Apr 12, 2021:** Introduced in House
- **Apr 12, 2021:** Referred to the Committee on Ways and Means, and in addition to the Committee on Energy and Commerce, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.
- **Apr 12, 2021:** Referred to the Subcommittee on Health.
