Summary (as of Apr 22, 2021)

Storage Technology for Operational Readiness and Generating Energy Act or the S.T.O.R.A.G.E. Act

This bill adds energy storage systems to the list of strategies states should consider when developing energy plans and using their utility ratemaking authority. States must consider requiring that, as a part of a supply side resource planning process, electric utilities in the states demonstrate that they considered an investment in energy storage systems based on factors such as cost, improved reliability, security, and system performance and efficiency.

The Department of Energy (DOE) must coordinate efforts among various existing programs conducting energy storage research at DOE.

Actions Timeline

- **Apr 23, 2021:** Referred to the Subcommittee on Energy.
- **Apr 22, 2021:** Introduced in House
- **Apr 22, 2021:** Referred to the Committee on Energy and Commerce, and in addition to the Committee on Science, Space, and Technology, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.
- **Apr 22, 2021:** Referred to the Subcommittee on Energy.
