Summary (as of May 11, 2022)

Information Sharing And Advanced Communication Alerting Act or the ISAAC Alerting Act

This bill requires the Technological Advisory Council of the Federal Communications Commission, in consultation with relevant stakeholders, to submit a report that identifies measures, barriers, and recommendations for implementing a 9–1–1 disability alerting system.

The alerting system must allow an individual to register and create a profile associated with an individual who has a disability that includes information such as whether the individual is a wandering risk, nonverbal, or physically limited. The alerting system then transmits such information to public safety answering points to be conveyed to first responders.

Actions Timeline

- **May 11, 2022:** Introduced in Senate
- **May 11, 2022:** Read twice and referred to the Committee on Commerce, Science, and Transportation.
