Summary (as of Jun 23, 2022)

Historic Lighthouse Resiliency Act

This bill authorizes the U.S. Army Corps of Engineers to carry out projects to (1) improve the resilience of historic light stations against the adverse effects of climate change, (2) ensure continued public access to historical light stations, and (3) improve public safety on the grounds of historical light stations.

The Corps must conduct a study of national historic light stations to determine the long-term protection needs of such stations and establish a national database of the stations based on the results of the study.

Actions Timeline

- **Jun 23, 2022:** Introduced in Senate
- **Jun 23, 2022:** Read twice and referred to the Committee on Environment and Public Works. (Sponsor introductory remarks on measure. CR S3163)
