Summary (as of Jul 19, 2022)

Steel Upgrading Partnerships and Emissions Reduction Act of 2022 or the SUPER Act of 2022

This bill requires the Department of Energy (DOE) to establish a program to reduce greenhouse gas emissions from the production of iron, steel, and steel mill products. Specifically, DOE must establish a program of research, development, demonstration, and commercial application of advanced tools, technologies, and methods for low-emissions steel manufacturing. In carrying out the program and in collaboration with industry partners, institutions of higher education, and its national laboratories, DOE must support an initiative for the demonstration of low-emissions steel manufacturing.

Actions Timeline

- **Jul 19, 2022:** Introduced in Senate
- **Jul 19, 2022:** Read twice and referred to the Committee on Energy and Natural Resources.
