Energy Sector Innovation Credit Act of 2021

This bill adds new tax credits for investment in qualified emerging technology energy property and for the production of electricity from emerging energy technology. The bill defines *qualified emerging energy property* as property that is constructed, reconstructed, erected, or acquired by the taxpayer and is (1) a facility for the production of electricity from emerging energy technology, (2) carbon capture equipment, or (3) energy storage technology.

The bill also adds a new tax credit for the production of electricity from clean hydrogen. The bill defines *clean hydrogen* as hydrogen that is produced through a production method for which the rate of the greenhouse gas emission is greater than zero and not greater than 2,500g CO₂-e per kilogram of hydrogen produced, or is equal to or less than zero.

Actions Timeline
