*No related bills are listed.*

### Summary (as of Aug 3, 2022)

This bill requires the Department of Energy to study the ability to meet aggregate electricity demand using supply- and demand-side resources. The study must address matters including (1) the effects of recent retirements of baseload electric generation on regional electric grids; and (2) uncertainty in future electricity demand trajectories from climate change, decarbonization, and other factors.

### Actions Timeline

- Aug 3, 2022:** Introduced in Senate
- Aug 3, 2022:** Read twice and referred to the Committee on Energy and Natural Resources.
