9/11 Responder and Survivor Health Funding Correction Act

This bill increases funding for and otherwise modifies a federal program that provides medical monitoring and treatment to responders and survivors who suffer from health conditions related to the September 11, 2001, attacks on the World Trade Center.

Among the changes, the bill allows certain health care providers other than physicians to determine whether an individual's health condition is related to the attacks, and it establishes a research program to study the impacts of the attacks on health and educational outcomes of individuals who were 21 years of age or younger when the attacks occurred.
