Summary (as of Oct 22, 2021)

Manufacturing Assistance to Determine Emissions Act or the MADE Act

This bill requires the Environmental Protection Agency to establish a program to enhance the transparency and availability of life-cycle assessment data on products made from certain material, such as aluminum, steel, and concrete. Life-cycle assessments examine the greenhouse gas emissions and other environmental impacts associated with all stages of the product's life cycle.

Actions Timeline

- **Oct 25, 2021:** Referred to the Subcommittee on Environment and Climate Change.
- **Oct 22, 2021:** Introduced in House
- **Oct 22, 2021:** Referred to the Committee on Energy and Commerce, and in addition to the Committees on Oversight and Reform, and Science, Space, and Technology, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.
- **Oct 22, 2021:** Referred to the Subcommittee on Environment.
