Summary (as of Feb 1, 2022)

Eliminating Abusive and Rampant Neglect of Interactive Technologies Act of 2022 or the EARN IT Act of 2022

This bill revises the federal framework governing the prevention of online sexual exploitation of children.

The bill establishes the National Commission on Online Child Sexual Exploitation Prevention. The commission must develop best practices for interactive computer services providers (e.g., Facebook and Twitter) to prevent, reduce, and respond to the online sexual exploitation of children.

Additionally, the bill limits the liability protections of interactive computer service providers with respect to claims alleging violations of child sexual exploitation laws.

The bill replaces various statutory references to *child pornography* and *material that contains child pornography* with *child sexual abuse material*.

Finally, the bill makes changes to the reporting requirements for electronic communication service providers and remote computing service providers (providers) who report apparent instances of crimes involving the sexual exploitation of children to the National Center for Missing and Exploited Children. Among the changes, the bill requires providers to report facts and circumstances sufficient to identify and locate each minor and each involved individual. The bill also increases the amount of time that providers must preserve the contents of a report.

Actions Timeline

- **Feb 2, 2022:** Referred to the Subcommittee on Communications and Technology.
- **Feb 1, 2022:** Introduced in House
- **Feb 1, 2022:** Referred to the Committee on Energy and Commerce, and in addition to the Committees on the Judiciary, and Education and Labor, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.
