## **Coin Metal Modification Authorization and Cost Savings Act of 2021**

This bill authorizes the United States Mint to modify the metallic composition of circulating coins (including by prescribing reasonable manufacturing tolerances with respect to those coins) if a study and analysis conducted by the Mint indicates that the modification will

- reduce costs incurred by the taxpayers;
- be seamless, which shall be determined by verifying that the coins will work interchangeably in most coin acceptors using electromagnetic signature technology; and
- have as minimal an adverse impact as possible on the public and stakeholders.

The Mint must notify Congress before making the modification and provide a justification for the modification.
