## Summary (as of Mar 15, 2022)

### Veterans Exposed to Toxic PFAS Act or the VET PFAS Act

This bill provides eligibility for Department of Veterans Affairs (VA) hospital care and medical services to veterans and their family members (including those in utero) who have specified conditions and resided at a military installation where individuals were exposed to perfluoroalkyl and polyfluoroalkyl substances, commonly known as PFAS. PFAS are man-made and may have adverse human health effects.

Hospital care and medical services may not be furnished for a condition that is found to have resulted from a cause other than the exposure to PFAS at a military installation.

The VA may provide reimbursement for hospital care or medical services provided to a family member only after the family member or provider has exhausted all claims and remedies otherwise available for payment of such care.

For disability compensation purposes, the bill establishes a presumption of service-connection for specified conditions in veterans who served at a military installation at which individuals were exposed to PFAS. Under a presumption of service-connection, specific conditions diagnosed in certain veterans are presumed to have been caused by the circumstances of their military service. Health care benefits and disability compensation may then be awarded.

## Actions Timeline

- **Mar 28, 2022:** Referred to the Subcommittee on Health.
- **Mar 15, 2022:** Introduced in House
- **Mar 15, 2022:** Referred to the House Committee on Veterans' Affairs.
