### Summary (as of Mar 17, 2022)

#### Water Design-Build Improvement Act of 2022

This bill allows the Environmental Protection Agency (EPA) and the U.S. Army Corps of Engineers (USACE) to use the collaborative project delivery method for certain water infrastructure projects (e.g., building and upgrading wastewater and drinking water treatment systems). This method involves collaboration among those involved at various stages of a project from design through completion of construction.

The bill also requires the EPA and USACE to study the use of the collaborative project delivery method in these projects and make the results public.

## Actions Timeline

---

- **Mar 18, 2022:** Referred to the Subcommittee on Environment and Climate Change.
- **Mar 18, 2022:** Referred to the Subcommittee on Water Resources and Environment.
- **Mar 17, 2022:** Introduced in House
- **Mar 17, 2022:** Referred to the Committee on Transportation and Infrastructure, and in addition to the Committee on Energy and Commerce, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.
