## Summary (as of May 11, 2022)

### Unborn Protection Act

This bill creates new federal crimes related to the performance of an abortion on an unborn child based on the results of a laboratory developed prenatal test. The term *laboratory developed prenatal test* means a type of in vitro diagnostic test that is designed, developed, manufactured, validated, or performed within a single laboratory and is not cleared or approved by the Food and Drug Administration

It subjects a violator to criminal penalties—a fine, a prison term of up to five years, or both.

It also authorizes civil remedies, including damages and injunctive relief.

A woman who undergoes such an abortion may not be prosecuted or held civilly liable.

## Actions Timeline
