Expanding Access to Family Planning Act

This bill provides, subject to specified conditions, funding through FY2032 for federally funded family planning services and clinics.

In particular, the funds must be used for (1) grants and contracts that support the provision of family planning services, and (2) clinic infrastructure (e.g., construction and renovation of clinics).

Clinics that receive funding to provide family planning services must offer each patient with a positive pregnancy test the opportunity for nondirective counseling on (1) prenatal care and delivery; (2) infant care, foster care, and adoption; and (3) pregnancy termination. This counseling must include referrals if requested by a patient.

Additionally, if a funding recipient makes subawards for the provision of family planning services, the recipient may not prohibit an entity from participating in a subaward program for reasons other than the entity's inability to provide family planning services.

Actions Timeline

- **Jul 19, 2022:** Introduced in House
- **Jul 19, 2022:** Referred to the House Committee on Energy and Commerce.
