## American Cures Act

This bill permanently funds several federal agencies and programs that perform biomedical research.

The bill provides specified funding for

- the National Institutes of Health,
- the Centers for Disease Control and Prevention,
- the Department of Defense health program, and
- the Department of Veterans Affairs medical and prosthetics research program.

The bill exempts the funding from sequestration, which is a process of automatic, usually across-the-board spending reductions under which budgetary resources are permanently cancelled to enforce specific budget policy goals.

It also exempts the budgetary effects of the funding from the Statutory Pay-As-You-Go Act of 2010 (PAYGO) and the Senate PAYGO rule.
