## Summary (as of Mar 29, 2023)

### National Plan to End Parkinson's Act

This bill requires the Department of Health and Human Services (HHS) to carry out a project to prevent and cure Parkinson's disease (a progressive brain disorder that causes unintended or uncontrollable movements) and related conditions.

Among other components of the project, HHS must (1) implement and periodically update a national plan to coordinate and guide efforts to prevent, slow the progression of, and cure the disease; and (2) improve diagnosis, treatment, and care of those with the disease. HHS must also annually assess the preparations for and response to the increased burden of Parkinson's disease.

In addition, the bill establishes a council, comprised of federal and nonfederal stakeholders, to advise HHS on and make recommendations concerning the prevention and treatment of Parkinson's disease.

The provisions of the bill terminate at the end of calendar year 2035.

## Actions Timeline

- **Mar 29, 2023:** Introduced in Senate
- **Mar 29, 2023:** Read twice and referred to the Committee on Health, Education, Labor, and Pensions.
