Summary (as of Jan 9, 2023)

Improving Science in Chemical Assessments Act

This bill modifies procedures related to specified chemical assessments performed by the Environmental Protection Agency (EPA). Specifically, chemical hazard identification and dose response assessments must be performed by the appropriate EPA program office (they are currently performed by the Integrated Risk Information System program).

Additionally, the bill requires the EPA to establish a steering committee to ensure there is no duplication of effort by relevant program offices in conducting covered assessments.

Actions Timeline

- **Jan 20, 2023:** Referred to the Subcommittee on Environment, Manufacturing, and Critical Materials.
- **Jan 9, 2023:** Introduced in House
- **Jan 9, 2023:** Referred to the Committee on Science, Space, and Technology, and in addition to the Committee on Energy and Commerce, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.
