Summary (as of May 23, 2023)

This bill directs the Federal Aviation Administration (FAA) to require that medications and medical equipment for the emergency treatment of a known or suspected opioid overdose be included in an aircraft emergency medical kit; the FAA must, to the maximum extent possible, follow the guidance of the Aerospace Medical Association.

In a 2019 guidance document to the FAA, the Aerospace Medical Association recommended including an opioid antagonist (e.g., naloxone or Narcan) in an aircraft emergency medical kit.

Actions Timeline

- **May 24, 2023:** Referred to the Subcommittee on Aviation.
- **May 23, 2023:** Introduced in House
- **May 23, 2023:** Referred to the House Committee on Transportation and Infrastructure.
