Summary (as of Aug 15, 2023)

This bill expands the tax credit for increasing research activities to add a new credit amount equal to 14% of specified medical research expenditures. The bill defines *specified medical research expenditures* as amounts paid or incurred for research with respect to any qualified countermeasure (i.e., a drug, biological product, or device determined to be a priority in protecting against harm from a biological agent or adverse health condition).
