Hydrogen Safety and Environmental Responsibility Act

This bill directs the Department of Transportation (DOT) to complete a study assessing the potential and existing use of pipelines constructed with composite materials to safely transport hydrogen and hydrogen blended with natural gas. In completing the study, DOT must hold a public meeting with interested stakeholders, release a draft version of the study for public comment, and address any substantive comments submitted during the public comment period.

DOT must present the study's findings at a public meeting. Within 18 months of the public meeting, DOT must issue a rulemaking to allow for the use of composite materials for pipeline transportation of hydrogen and hydrogen blended with natural gas.

Actions Timeline

- **Dec 1, 2023:** Referred to the Subcommittee on Energy, Climate and Grid Security.
- **Nov 30, 2023:** Referred to the Subcommittee on Railroads, Pipelines, and Hazardous Materials.
- **Nov 29, 2023:** Introduced in House
- **Nov 29, 2023:** Referred to the Committee on Transportation and Infrastructure, and in addition to the Committee on Energy and Commerce, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.
