Summary (as of Dec 1, 2023)

Broadening Online Opportunities through Simple Technologies Act or the BOOST Act

This bill allows an individual taxpayer to elect a tax credit for 75% of qualified signal booster expenditures up to \$400 in a single taxable year through 2027. The bill defines *qualified signal booster expenditures* as amounts paid for the purchase of any communications signal booster and other equipment for use by the taxpayer in a principal residence located in an unserved area. The booster is designed to increase the strength or range of a broadband communications signal.
