Social Security Enhancement and Protection Act of 2023

This bill increases certain Social Security taxes and benefits.

Under current law, Social Security has a *taxable earnings base*, which refers to the maximum amount of a worker's earnings that are subject to Social Security payroll taxes (set at \$160,200 in 2023). Additionally, the taxable earnings base serves as the maximum amount of earnings used to calculate a worker's Social Security benefits.

This bill gradually increases the Social Security payroll tax rate from 6.2% to 6.5% over six years. It also phases out the taxable earnings base, thereby applying the payroll taxes to a greater amount of a worker's earnings, and revises the method to calculate a worker's Social Security benefits to account for earnings in excess of the taxable earnings base.

Other changes to benefits include establishing a new method to calculate benefits for lifetime low earners and increasing benefits for certain beneficiaries on account of long-term eligibility. In addition, an eligible child of a retired, disabled, or deceased worker may continue to receive benefits through age 26, provided the child is a full-time student.

Actions Timeline

- **Dec 17, 2024:** Referred to the Subcommittee on Social Security.
- **Jan 31, 2023:** Introduced in House
- **Jan 31, 2023:** Referred to the House Committee on Ways and Means.
