Oral Health Products Inclusion Act

This bill allows individuals to use funds in a flexible spending arrangement (FSA), health reimbursement arrangement (HRA), health savings account (HSA), or Archer medical savings account (Archer MSA) to pay for toothbrushes (manual or electric), water flossers, and oral health products.

Under current law, reimbursements from an FSA or HRA and tax-free distributions from an HSA or Archer MSA may be used to pay for the qualified medical expenses. Reimbursements from an FSA or HRA for nonmedical expenses generally are not allowed and distributions from an HSA or Archer MSA for nonmedical expenses generally are taxed as income and may be subject to an additional penalty.

Under the bill, the definition of qualified medical expenses is expanded to include toothbrushes (manual or electric), water flossers, and oral health products.

The bill defines an *oral health product* as an over-the-counter product that is (1) used for preventing or treating dental cavities, plaque, or gingivitis; (2) suitable for topical administration to the teeth or gums; and (3) generally recognized as safe and effective.

Actions Timeline

- **Feb 11, 2025:** Introduced in House
- **Feb 11, 2025:** Referred to the House Committee on Ways and Means.
