Bill	Relationship	Last Action
119 HR 3077	Related bill	Apr 29, 2025: Referred to the Committee on Agriculture, and in addition to the Committees on Education and Workforce, Energy and Commerce, House Administration, and Oversight and Government Reform, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

Agriculture Resilience Act of 2025

This bill establishes, expands, and revises multiple programs and activities of the Department of Agriculture (USDA) primarily to reduce carbon emissions from the agricultural sector.

Specifically, USDA must finalize and implement a plan to achieve net-zero emissions from the sector by 2040. USDA must periodically review and revise the plan, as necessary, and annually report on its implementation.

Additionally, the bill expands the scope of various USDA research, extension, and education programs; conservation programs; and livestock programs to incorporate climate change mitigation and adaptation. Expanded activities include efforts to improve soil health and preserve farmland and grassland.

Further, the bill changes programs that support renewable energy in rural areas to address carbon emissions in the agricultural sector. Among these changes, the bill provides statutory authority for the AgSTAR program for reducing methane emissions from livestock waste and requires the program to be moved from the Environmental Protection Agency to USDA.

The bill also addresses food waste, for example, by (1) standardizing the voluntary labels used by food producers to indicate the date by which food should be used or discarded, and (2) making composting activities eligible for support through USDA conservation programs. Moreover, the bill establishes grants to reduce and prevent food waste in landfills and in schools.

Actions Timeline

- **Apr 29, 2025:** Introduced in Senate
- **Apr 29, 2025:** Read twice and referred to the Committee on Agriculture, Nutrition, and Forestry.
