Summary (as of Oct 28, 2025)

Relief of Chronic Pain Act of 2025

This bill reduces cost-sharing and prohibits the imposition of certain utilization requirements under the Medicare prescription drug benefit for certain non-opioid drugs for chronic pain management.

Specifically, the bill requires such drugs to be covered without a deductible and to be placed on the lowest cost-sharing tier (if any). The bill also prohibits the imposition of prior authorization requirements (i.e., requiring prior approval from a plan) or step therapy requirements (i.e., requiring the use of alternative drugs before a drug is covered under a plan) with respect to such drugs.
