## Summary (as of Feb 26, 2025)

### Accelerating Kids' Access to Care Act

This bill requires states to establish a process through which qualifying out-of-state providers may temporarily treat children under Medicaid and the Children's Health Insurance Program (CHIP) without undergoing additional screening requirements.

Specifically, states must establish a process through which qualifying out-of-state providers may enroll for five years as participating providers to treat individuals under the age of 21 without undergoing additional screening requirements.

A qualifying out-of-state provider (1) must not have been excluded or terminated from participating in a federal health care program or state Medicaid program; and (2) must have been successfully enrolled in Medicare or a state Medicaid program based on a determination that the provider posed a limited risk of fraud, waste, or abuse.

The bill's changes take effect three years after enactment.
